Summary

I am a student at Softwarica College while seeking a part-time job to gain practical experience. As a full stack intermediate developer, I have proficiency in both frontend and backend technologies, including React, Node.js, WebSocket, Express, and authentication for credentials. My experience includes developing various projects such as a chat app, blog app, and other web applications.

🎓 Education

Jun, 2021 - May, 2023
Balkumari, Koteshwor

Computer Science
Capital College and Research Center
High School

🧩 Experience

Nov, 2023 - Mar, 2024

Projects

Dec, 2023

Mern Chat App
🔗 https://mern-chatapp-abhi.onrender.com/
I made this chatapp as a production level with clean code

Jun, 2023

Blog App
🔗 https://blog.abhishek-adhikari.com.np/
I made this blog website which fetch posts from my facebook page and display them in website using facebook graph api and also i can post content from website dashboard to blog website only or facebook page only or both and also this web app allows admin to manage all content of the entire website and facebook page just from the website

Portfolio
🔗 https://www.abhishek-adhikari.com.np/

I made a portfolio website with many features when i was back in grade 11
